

Sweaty Bands was started by Donna, a married mother of three who was teaching group fitness classes and personal training for 20 years.

Donna started making Sweaty Bands as a way to supplement her income. Donna has an obsession with having the freshest tunes to keep her students motivated but buying all that music was getting expensive. Eventually, her entire paycheck was going to purchasing all that new music!

She started selling a few Sweaty Bands out of her gym bag and found that it was a way for her to keep buying music and to pay for continuing education. Since then, Sweaty Bands has taken off and become a fashion trend in the fitness world. To learn more about Sweaty Bands, [Click Here!](#)
